Subject index

Abortion
anti-phospholipid antibodies, anti-cardiolipin antibody, lupus anticoagulant, pregnancy loss 889
cryopreservation, blastocyst, viability, freezing damage 136
recurrent abortion, lymphocytotoxic antibody, anti- paternal cytotoxic antibody, immunotherapy 294
recurrent spontaneous abortion, recommendations of the ESHRE Workshop, Anacapri, September 1990 609
recurrent spontaneous abortion, null allele, genetic marker, complement C4 1384
spontaneous abortion, cytogenetic studies, chromosome anomalies, pregnancy 555
spontaneous abortion, medical referral, infertility, prevalence, age 1391
spontaneous abortion, risk factors, case–control study 1332
uterine contractility, prostaglandins, decidua, RU486, indomethacin 740
β-*N*-Acetylhexosaminidase
preimplantation embryo, α-amanitin, mouse oocytes 280
Acrosin
acrosome reaction, acrosomal defects, spermatozoa, male infertility 969
acrosomes, sperm motility, cryopreservation 1279
Acrosomes
acrosin, sperm motility, cryopreservation 1279
acrosome fluorescence, peanut lectin, flow cytometry, sperm quality 1129
acrosome reaction, acrosomal defects, acrosin, spermatozoa, male infertility 969
acrosome reaction, capacitation, sperm motility, zona pellucida binding, antisperm antibodies, monoclonal antibodies 1416
acrosome reaction, spermatozoa, capacitation, G-proteins, protein phosphorylation 1265
Adhesions
intraperitoneal adhesions, prostaglandins, aspirin, rat 251
Adrenergic receptors
noradrenaline, neuropeptide Y, tyrosine hydroxylase, uterine artery 1034
Age
ageing gametes, fertilization failure, oocytes, GnRH analogue, HMG, IVF 879
infertility, idiopathic infertility, male factor, intrauterine insemination, multiple follicular recruitment 947
ovarian ageing, clomiphene citrate, gonadotrophins, oestradiol 931
Aneuploidy
spermatozoa, oocytes, meiosis, chromosomes 1252
Aniline blue staining
chromatin condensation, spermatozoa, sperm morphology, sperm malformation, assisted fertilization 979
Anti-cardiolipin antibody
anti-phospholipid antibodies, lupus anticoagulant, pregnancy loss, abortion 889
Anti-paternal cytotoxic antibody
recurrent abortion, immunotherapy 294
Antibodies
anti-phospholipid antibodies, anti-cardiolipin antibody, lupus anticoagulant, pregnancy loss, abortion 889
antisperm antibodies, capacitation, monoclonal antibodies, zona pellucida binding 1416
epididymal proteins, immunochemical localization, mouse 259
lymphocytotoxic antibody, anti-paternal cytotoxic antibody, recurrent abortion, immunotherapy 294
mixed antiglobulin reaction, immunobead test, cervical mucus, spermatozoa, intrauterine insemination 1125
mixed antiglobulin reaction, sperm–mucus interaction, infertility 267
Percoll, immunobead preparation, infertility 593
sperm progressive velocity, amplitude of lateral head displacement, human sperm movement 405
Arginine esterase
follicular fluid, Cellulofine, gel filtration, substrate specificity 1030
Arginine-vasopressin
HCG, pulsatility, culture, placental superfusion 766
Artificial insemination by donor
cervical mucus, semen, motility, freeze–thawed samples 1108
gamete donation, attitudes, spermatozoa 307
Asherman's syndrome
medicated IUD, oestriol, gonadotrophins, rhesus monkey 1373
Aspirin
prostaglandins, intraperitoneal adhesions, rat 251
Assisted reproductive techniques
IVF–ET, GIFT, frozen–thawed embryos, pregnancy 613
spermatozoa, sperm malformation, sperm morphology, chromatin condensation, aniline blue staining 979
spermatozoa, sperm penetration, hypoosmotic swelling, sperm viability, supravital staining 1115
superovulation, unexplained infertility, randomized trial, pregnancy rates 953
Asthenoteratozoospermia
epididymal secretory function, α-glucosidase, male infertility 850
Autoimmunity to spermatozoa
antibodies to membrane antigens, sperm motility, amplitude of lateral head displacement 405

Bacterial endotoxin
culture media, IVF, preimplantation embryos, mouse oocytes 730
Bilateral adnexal torsion
clomiphene citrate 1439
Bilateral salpingectomy
ectopic pregnancy, IVF, case report 1167
Biopsy
decompaction, micromanipulation, late mouse morulae, embryo viability 1298
endometrial glands, ultrastructure, morphometry, hormone replacement therapy 1354
preimplantation embryo, zone drilling, blastomere 85
Blastocyst
rat pronuclear embryo, culture media, oxygen 1443
Blastomere typing
polymerase chain reaction, gene amplification, embryo, biopsy, preimplantation diagnosis 836
Buserelin
GnRH agonist, HCG, delayed administration, pregnancy, HCG 944
GnRH agonist, LH surge, ovulation triggering, HMG, ovarian hyperstimulation syndrome 506
GnRH analogue, gonadotrophins, prolactin, IVF, HCG 1070
HMG, pituitary down-regulation, poor versus good response, IVF 918
intranasal buserelin, GnRH agonist, ovarian stimulation, IVF, pregnancy 290
LHRH agonist, dose, mode of administration, IVF, pituitary agonist 1370
pituitary-down regulation, oestradiol, progesterone, oestrone, cryopreserved embryo transfer 934

CA 125
peritoneal fluid, endometriosis, danazol 1395
cAMP
insulin-like growth factor, insulin-like growth factor binding protein, receptor, synergism 1213
progesterone, interleukin-1α, granulosa–luteal cells, luteinizing hormone, IVF 910
Capacitation
acrosome reaction, sperm motility, zona pellucida binding, antisperm antibodies, monoclonal antibodies 1416
spermatozoa, acrosome reaction, G-proteins, protein phosphorylation 1265
Catheter
Frydman catheter, Tom Cat catheter, embryo transfer, IVF, pregnancy 1092
2-cell block
free radicals, embryo culture, mouse, reduced glutathione 867
mouse embryo, superoxide dismutase, thioredoxin, embryo development 1305
Cellsoft
spermatozoa, automated screening, stepwise linear regression, IVF 1119
Cervical mucus
antisperm antibodies, mixed antiglobulin reaction, immunobead test, intrauterine insemination 1125
post-partum period, sperm migration 475
scanning electron microscopy, anisotrophy, dendrites, spherulites, sulphates 1192

semen, motility, freeze–thawed samples, artificial insemination by donor 1108
Chimaera
trophectoderm, inner cell mass, orthotopic cell transplantation, mouse morulae 25
Chromatin condensation
aniline blue staining, sperm morphology, sperm malformation, assisted fertilization 979
Chromopertubation
tubal infertility, radionuclide migration, laparoscopy 529
Chromosomes
chromosomal aberration, spermatogenesis, cytogenetic studies, infertility 245
chromosomal abnormalities, spermatozoa, Robertsonian translocation, synaptic anomalies, XY-trivalent association 376
chromosome abnormalities, spermatozoa, capacitation, TEST-yolk buffer 369
chromosome abnormalities, spermatozoa, sperm ageing, IVF, mouse 703
chromosome anomalies, chromosomes, oocytes 1100
estimated frequency, chromosome anomalies, pregnancy, spontaneous abortion 555
isodicentric Y, Turner's mosaic 566
oocytes, meiotic non-disjunction, mathematical model, IVF 550
premature chromosome condensation, oocyte immaturity, HCG, IVF 1017
spermatozoa, oocytes, meiosis, aneuploidy 1252
Clomiphene citrate
adnexa, torsion 1439
Clomiphene citrate + HMG, follicular stimulation, IVF, human 106
endometrium, luteal phase, pregnancy associated endometrial α_2-globulin, fluorography, human 783
gonadotrophins, oestradiol, ovary, ovarian ageing 931
infertility, intrauterine insemination 390
polycystic ovary syndrome, ovulation induction, FSH 218
premature luteinization, progesterone, natural cycles, pregnancy 190
unexplained infertility, luteinized unruptured follicles, luteinizing hormone, FSH 659
Cloprostenol
prostaglandin $F_{2\alpha}$ analogue, granulosa–luteal cells, HCG, progesterone 779
CO_2-laser-endoscopy
infertility, surgery 1288
Coagulation
fibrinolysis, ovary, ovarian stimulation, HCG, IVF 925
Complement C4
genetic marker, null allele, recurrent spontaneous abortions 1384
Congenital malformations
perinatal outcome, IVF 1259
Contraception
growth, pregnancy, hamster, stevioside 158
vaccines, birth control, preimplantation embryo, immunocontraception 166
Corpus luteum
luteal phase defect, endometriosis, salivary progesterone 1223
oestradiol, progesterone, norethisterone, HCG, luteal phase 1050
Cortisol
progesterone, oestradiol, epidermal growth factor receptors, endometrium 1365
Cryopreservation
1,2-propanediol, embryos, ovarian stimulation, HMG, GnRH agonistic analogue, IVF 799
acrosin, acrosomes, sperm motility 1279
biopsied mouse embryos, prenatal diagnosis 832
blastocyst, viability, implantation, freezing damage 136
cryopreservation protocols, dimethyl sulphoxide equilibration, preovulatory human oocytes, mouse oocytes 1453
embryo transfer, pituitary-down regulation, buserelin, oestradiol, progesterone, oestrone 934
intra-vaginal culture, oocytes, GIFT 76
oocytes, fertilization, dimethyl sulphoxide, cryoprotectant 142
preimplantation embryo, frozen–thawed embryo, zygote, IVF 131
preovulatory oocytes, implantation, pregnancy, IVF 284
semen, chemotherapy, lymphoma, case report 992
spermatozoa, lymphoma, testicular neoplasm, GIFT, pregnancy 365
ultra-rapid freezing, embryos, IVF, pregnancies 735
zona-drilled embryos, IVF, mouse 432
Culture media
bacterial endotoxin, IVF, preimplantation embryos, mouse oocytes 730
energy substrates, metabolism, amino acids, hamster embryo 64
luteinization, progesterone, granulosa–luteal cells, IVF 1343
oxygen, rat pronuclear embryo, blastocyst 1443
platelet-activating factor, embryo, human, mouse, radioimmunoassay versus bioassay 872
Cytogenetic studies
chromosomal aberration, spermatogenesis, infertility 245
chromosome abnormalities, spermatozoa, capacitation, TEST-yolk buffer 369
chromosomes, isodicentric Y, Turner's mosaic 566
estimated frequency, chromosome anomalies, spontaneous abortion, pregnancy 555
oocytes, chromosome anomalies, IVF 1100
oocytes, chromosomes, IVF, human 709
oocytes, meiotic non-disjunction, mathematical model, IVF 550
premature chromosome condensation, oocyte immaturity, HCG, IVF 1017
spermatozoa, oocytes, meiosis, aneuploidy 1252
unfertilized oocytes, chromatids, premature centromere division 568
Cytokeratin
vimentin, intermediate filament protein, endometriosis, pregnancy, endometrial glands 1466

Danazol
endometriosis, CA 125, peritoneal fluid 1395
Decidua
endometrium, intermediate filament proteins, monoclonal antibody 186
first trimester decidua, endothelium, immunomagnetic beads, Dynabeads 1156
placenta, P29, oestrogen receptor-associated protein, mifepristone 1338
prostaglandins, RU486, indomethacin, abortion, uterine contractility 740
Delayed embryo transfer
IVF alleviating techniques, IVF–ET 541
Dendrites
cervical mucus, scanning electron microscopy, anisotrophy 1192
Desensitization versus flare protocols
GnRH agonist, leuprolide acetate, HCG, luteal phase, IVF 206
Desmin
intermediate filament proteins, decidua, endometrium, monoclonal antibody 186
Diethylstilbestrol
genital tuberculosis, septate uterus, pregnancy, IVF, case report 690
Diff-Quik staining
spermatozoa, morphology, fertilization rate, IVF 854
Digital vasoconstriction response
menopausal flush symptomatology 472
Dimethyl sulphoxide
cryoprotectant, oocytes, human 142
equilibration, cryopreservation protocols, oocytes, preovulatory human oocytes, mouse oocytes 1453
Donors
embryos, steroid replacement therapy, pregnancy, IVF–ET 299
oocyte donors, psychological evaluation 1478
known egg donor, electro-ejaculation, pregnancy, IVF 384

Early pregnancy factor
human placental extracts, rosette inhibition assay, thioredoxin, thioredoxin-related polypeptides 450
ELISA
superoxide dismutase, ovary, follicular fluid, immunohistochemistry 1349
Embryonic haemopoietic stem cells
embryonic cell grafting, xenotransplantation, techniques, mouse embryos 79
Embryos
biopsy, polymerase chain reaction, gene amplification, polar body typing, preimplantation diagnosis 836
biopsy, prenatal diagnosis, cryopreservation, mouse 832
blastocyst, rat pronuclear embryo, culture media, oxygen 1443
cryopreservation, leuprolide acetate, endometrial preparation, IVF 443
cryopreservation, ultra-rapid freezing, IVF, pregnancies 735
culture medium, platelet-activating factor, radioimmunoassay versus bioassay, human, mouse 872
culture, organogenesis, postimplantation, rat, mouse 58
culture, teratogenesis, retinoids, rat 144
embryo culture, 2-cell block, free radicals, reduced glutathione, mouse 867

embryo transfer, catheter, pregnancy, IVF 1092
embryo transfer, epididymal sperm aspiration, IVF, obstructive azoospermia 1284
embryo viability, biopsy, decompaction, late mouse morulae 1298
frozen embryo replacement, LHRH agonist, hormone replacement therapy, natural/artificial cycle 685
frozen–thawed embryos, frozen embryo replacement, natural/artificial cycle, hormone replacement therapy 685
human embryo research, technology of human reproduction, social control, IVF 1480
in-vitro culture, human blastocyst, morphology, HCG 1143
mouse embryo, 2-cell block, superoxide dismutase, thioredoxin 1305
oocytes, β-*N*-acetylhexosaminidase, α-amanitin, mouse 280
oocyte, rabbit, HCG, luteinizing hormone 1445
pre-embryo, oocyte, oogenic-prespermatogenic wave, germ line 1411
preimplantation embryos, bacterial endotoxin, culture media, IVF 730
prostaglandins, platelet activating factor, implantation 436
whole embryo culture, teratogenesis, retinoids, rat 144
zona drilling, cryopreservation, IVF, mouse 432

Endometriosis
CA 125, peritoneal fluid, danazol 1395
endometrial protein PP14, immunolocalization 1408
folliculogenesis, ovulation, luteinized unruptured follicle, menstrual cycle 227
frequency, laparoscopic tubal sterilization, pregnancy 699
genital endometriosis, GnRH agonist, Zoladex, depot formulation 694
pelvic cysts, transvaginal ultrasound, infertility 1404
pelvic endometriosis, adenomyosis externa, nosology, a history 963
pregnancy, intermediate filament protein, vimentin, cytokeratin, endometrial glands 1466
prevalence, fertility–infertility 544
retarded endometrial development, luteal phase, infertility, progesterone 325
salivary progesterone, corpus luteum, luteal phase defect 1223
voluntary infertility, tubal sterilization, childbirth 1400

Endometrium
culture, proliferation, epidermal growth factor, immunocytochemistry 1200
endometrial ablation, intrauterine surgery, hysteroscopy 574
endometrial biopsy, endometrial protein, luteal phase, progesterone 484
endometrial biopsy, serum PEP, serum steroid levels, luteal phase 511
endometrial morphology, preimplantation development, luteal phase, progesterone 640
endometrial protein PP14, bleeding, first trimester pregnancy 885
endometrial proteins, implantation, placentation, placental protein 12 (IGFBP-1) 1311
endometrial stroma, culture, IGF-binding proteins, mRNA 632
endometrial stroma, granulated lymphocytes, immunohistochemistry, decidual imprints, pregnancy, human 791
endometrial thickness, endometrial pattern, ultrasonography, IVF, conception versus non-conception cycle 901
epidermal growth factor receptor, immunohistochemical localization, quantitative ligand binding 618
epidermal growth factor receptors, progesterone, cortisol, oestradiol 1365
intermediate filament proteins, desmin, decidua, monoclonal antibody 186
ovarian stimulation, gonadotrophins, IVF–ET, ultrasonography 232
pregnancy associated endometrial α_2-globulin, luteal phase, clomiphene citrate, fluorography, human 783
progestagen-associated endometrial protein, endometrial biopsy, luteal phase, infertility 761
retarded endometrial development, luteal phase, infertility, progesterone 325

β-Endorphin
HCG secretion, naloxone, opiate receptor, placental explants 1327

Endothelium
first trimester decidua, immunomagnetic beads, Dynabeads 1156

Energy substrates
metabolism, hamster embryo, culture medium, amino acids 64

Epidemiological survey
infertility, ovulatory disorders, tubal infertility, oligo-terato-asthenozoospermia, incidence 811

Epidermal growth factor receptors
endometrium, progesterone, cortisol, oestradiol 1365
immunocytochemistry, endometrium, culture, proliferation 1200
immunohistochemical localization, quantitative ligand binding, endometrium, myometrium 618

Epididymis
epididymal proteins, immunochemical localization, monoclonal antibody, mouse 259
epididymal proteins, monoclonal antibody, immunohistochemistry, testosterone, mouse 589
secretory function, α-glucosidase, asthenoteratozoospermia, male infertility 850
sperm aspiration, IVF, embryo transfer, obstructive azoospermia 1284

Epigenetic inheritance
genome imprinting, gene expression, phenotypic variations, human 45

Epithelium
epithelial cells, monolayer foundation, in-vitro culture, oestrous cycle, bovine 751
human ovary, microvilli, metaplasia, scanning electron microscopy 645

Epitope phosphorylation
monoclonal antibodies, indirect immunofluorescence, sperm tail fibrous sheath 1135

Ethics
editorial 745

Exercise
acute exercise, follicle stimulating hormone, inhibin, luteinizing hormone, testosterone 747

Fallopian tube
radionuclide hysterosalpingography, scintigraphic imaging, passive tubal transport, tubal function 1186

Fertilization
fertilization rate, Diff-Quik staining, spermatozoa, morphology, IVF 854
IVF, fertilization failure, oocytes, GnRH analogue, HMG 879
subzonal insemination, implantation, pregnancy, fertilization 124

Fetal erythrocytes
multiparameter flow cytometry, polymerase chain reaction, prenatal diagnosis 1460

Fibrinolysis
coagulation, ovary, ovarian stimulation, HCG, IVF 925

First trimester decidua
endothelium, immunomagnetic beads, Dynabeads 1156

Flagellum
flagellar defect, spermatozoa, sperm motility, outer dense fibres 1426

Flare regime
GnRH agonist, leuprolide acetate, IVF–ET, GIFT, HMG + CC 817

Flow cytometry
acrosome fluorescence, peanut lectin, sperm quality 1129
multiparameter flow cytometry, fetal erythrocytes, polymerase chain reaction, prenatal diagnosis 1460

Fluorescent in-situ hybridization
preimplantation embryo, X chromosome preimplantation, Y chromosome preimplantation, preimplantation diagnosis 101

Follicles
follicular aspiration, ovarian stimulation, ovarian hyperstimulation syndrome, IVF, intrauterine insemination 356
follicular fluid, arginine esterase, plasma, plasminogen, gel filtration, substrate specificity 1030
follicular fluid, ovary, immunohistochemistry, ELISA, superoxide dismutase 1349
follicular fluid, prostaglandins, steroid hormones, pregnancy, IVF 519
follicular growth, hormonal profiles, gonadotrophins, ovarian hyperstimulation syndrome 665
follicular monitoring, sonography, vaginal/abdominal route, IVF 688
follicular reduction, gonadotrophins, ovulation induction, polycystic ovarian disease, pregnancy 682
folliculogenesis, steroidogenesis, ovulation induction, luteinizing hormone, follicle stimulating hormone 1206
multiple follicular development, pulsatile GnRH 1379
preovulatory phase, gonadotrophins, ovarian stimulation, oestradiol, IVF 823

Free radicals
2-cell block, embryo culture, mouse, reduced glutathione 867

FSH
clomiphene citrate, unexplained infertility, luteinized unruptured follicles, luteinizing hormone 659
HMG, ovarian stimulation, GnRH analogue, LHRH analogue, IVF 922
luteinizing hormone, steroidogenesis, folliculogenesis, ovulation induction 1206
luteinizing hormone, testosterone, inhibin, acute exercise 747

Metrodin, HCG, quintuplet pregnancy, ovarian hyperstimulation 1474
polycystic ovary syndrome, clomiphene citrate, ovulation induction, pregnancy 218
prolactin, gonadotrophins 1070

G-proteins
spermatozoa, capacitation, acrosome reaction, protein phosphorylation 1265
Gamete donation
artificial insemination by donor, attitudes, spermatozoa 307
Genetic markers
null allele, recurrent spontaneous abortions, complement C4 1384
trophectoderm, inner cell mass, orthotopic cell transplantation, mouse morulae 25
Genome imprinting
gene expression, epigenetic inheritance, phenotypic variations, human 45
Germ line
oogenic-prespermatogenic wave, spermatogenic system, pre- embryo, oocyte, human 1411
GIFT
assisted medical procreation, infertility, pregnancy 613
cryopreservation, intra-vaginal culture 76
cryopreserved spermatozoa, pregnancy, case report 365
Fallopian tube, transcervical tubal catheterization 537
GnRH analogue, granulosa cells, HCG, luteal phase support 198
hysteroscopy, laparoscopy, pregnancy 1388
IVF–ET, GnRH agonist, leuprolide acetate, flare regime, HMG + CC 817
IVF–ET, gonadotrophins, growth hormone releasing factor, insulin-like growth factor, growth hormone 1228
laparoscopy, pelvic abscess, case report 604
microsurgery, obstructive azoospermia, pregnancy, case report 367
α-glucosidase
epididymal secretory function, asthenoteratozoospermia, male infertility 850
GnRH
GnRH agonist, pulsatile HCG, placental superfusion, culture 1063
pulsatile GnRH, follicles, control versus induction cycles 1379
GnRH agonist
buserelin, HCG, delayed administration, pregnancy, 944
buserelin, IVF, pregnancy 290
buserelin, IVF–ET, ovarian cysts, long versus short protocol 194
buserelin, LH surge, ovulation triggering, HMG, ovarian hyperstimulation syndrome 506
gonadotrophins, ovarian stimulation, follicles, preovulatory phase, IVF 823
leuprolide acetate, flare regime, HMG + CC, IVF–ET, GIFT 817
leuprolide acetate, HCG, densitization versus flare protocols, luteal phase 206
polycystic ovarian syndrome, IVF 238
Zoladex, depot formulation, genital endometriosis 694
GnRH analogue
granulosa cells, HCG, luteal phase support 198
HCG, ovarian hyperstimulation syndrome, IVF–ET 1088
HCG, progesterone, placental superfusion, trophoblastic cell differentiation 905
HMG, oocytes, ageing gametes, fertilization failure, IVF 879
Gonadotrophins
clomiphene citrate, ovary, ovarian ageing, oestradiol 931
exercise, follicle stimulating hormone, luteinizing hormone, testosterone 747
GnRH agonist, IVF–ET, ovarian cysts, long versus short protocol 194
GnRH analogue, buserelin, prolactin, IVF, HCG 1070
GnRH analogue, $DTRP^6$ microcapsules, IVF–ET, long and short protocols 203
GnRH analogue, ovarian stimulation, IVF–ET, smoking 242
growth hormone, ovulation induction, fertilization 670
growth hormone releasing factor, insulin-like growth factor, growth hormone, IVF–ET, GIFT 1228
insulin-like growth factor I, progesterone, granulosa cells, granulosa–luteal cells, culture 1074
low-dose gonadotrophins, polycystic ovarian syndrome, multiple pregnancy 1095
luteal support, luteal phase defect, GnRH analogue 914
medicated IUD, oestradiol, oestriol, rhesus monkey, Asherman's syndrome 1373
ovarian hyperstimulation syndrome, hormonal profiles, follicular growth 665
ovarian stimulation, endometrium, ultrasonography, IVF–ET 232
ovarian stimulation, insulin-like growth factor binding protein-1, IVF 1220
ovulation stimulation, IVF, preovulatory oestradiol 113
prolactin, ovary, ovarian inhibitory substance, LHRH 214
steroid hormones, peritoneal fluid, norethisterone, luteal phase 1233
Goserelin
LHRH agonist, uterine leiomyoma, conjugated oestrogens 500
Gossypol
seminal plasma, lactate dehydrogenase, 16 kd protein 714
Granulated lymphocytes
endometrium, endometrial stroma, decidual imprints, pregnancy, immunohistochemistry, human 791
Granulosa–luteal cells
cloprostenol, prostaglandin $F_{2\alpha}$ analogue, HCG, progesterone 779
culture, insulin-like growth factor, binding protein-1, DNA amplification, IVF, human 770
culture, interleukin-1α, cyclic AMP, progesterone, luteinizing hormone 910
culture media, IVF, luteinization, progesterone 1343
Granulosa cells
culture, progesterone, gonadotrophins, insulin-like growth factor I, IVF 1074
HCG, GnRH analogue, luteal phase support 198
phagocytosis, time-lapse cinematography, human 331
preovulatory mRNA, inhibin, alpha-subunit, IVF–ET 351
Growth hormone
gonadotrophins, ovulation induction, insulin-like growth factors, fertilization, Laron dwarfism 670
growth hormone releasing factor, gonadotrophins, insulin- like growth factor, IVF–ET, GIFT 1228
Norditropin, IVF–ET, ovarian stimulation, poor responders 524
Growth hormone releasing factor
gonadotrophins, insulin-like growth factor, growth hormone, IVF–ET, GIFT 1228

HCG
corpus luteum, norethisterone, oestradiol, progesterone, luteal phase 1050
delayed administration, GnRH agonist, buserelin, IVF, pregnancy 944
GnRH analogue, ovarian hyperstimulation syndrome, IVF–ET 1088
granulosa cells, GnRH analogue, luteal phase support 198
HCG secretion, placental explants, β-endorphin, naloxone, opiate receptor 1327
human blastocyst, morphology, in-vitro culture 1143
human blastocyst, trophectoderm biopsy, IVF 1449
IVF, GnRH agonist, densitization versus flare protocols, luteal phase 206
IVF–ET, sex hormone-binding globulin, oestradiol, testosterone, luteal phase 1039
luteinizing hormone, LH surge, urinary LH test, ovulation timing, intrauterine insemination 1247
luteinizing hormone, oocyte, embryo, rabbit 1445
ovarian hyperstimulation, complicated OHSS, oestradiol, peak oestradiol, IVF 959
ovarian hyperstimulation syndrome, management, prediction, prevention 1082
ovulation induction, multiple pregnancy 1152
progesterone, culture, placental superfusion, trophoblastic cell differentiation, GnRH analogue 905
progesterone, granulosa–luteal cells, cloprostenol, prostaglandin $F_{2\alpha}$ analogue 779
pulsatile HCG, placental superfusion, culture, GnRH, GnRH agonist 1063
pulsatility, stress-related hormones, culture, placental superfusion 766
HMG
buserelin, pituitary down-regulation, poor versus good response, IVF 918
follicle stimulating hormone, ovarian stimulation, GnRH analogue, LHRH analogue, IVF 922
GnRH analogue, oocytes, ageing gametes, fertilization failure, IVF 879
HMG + HCG, premature luteinization, progesterone, natural cycles, pregnancy 190
oxytocin, oestradiol, menstrual cycle, pregnancy 1056
Hormone replacement therapy
LHRH agonist, natural/artificial cycle, frozen embryo replacement 685

oestradiol, progesterone, pituitary-down regulation, oestrone, cryopreserved embryo transfer 934
oestradiol valerate, progesterone, endometrial glands, ultrastructure, morphometry 1354
Human blastocyst
in-vitro culture, HCG, morphology 1143
pre-embryo, nucleocytoplasmic ratio, preimplantation development 17
trophectoderm biopsy, HCG, IVF 1449
Human placental extracts
early pregnancy factor, rosette inhibition assay, thioredoxin, thioredoxin-related polypeptides 450
Human zona pellucida
spermatozoa, sperm motility, acrosome reaction 401
Hyaluronic acid
sperm migration, cervical mucus, sperm–mucus interaction 396
spermatozoa, preparation, intrauterine insemination 390
spermatozoa, preparation, sperm motility 386
Hyperprolactinaemia
oocyte retrieval, analgesia versus anaesthesia, IVF 1291
Hysteroscopy
endometrial ablation, intrauterine surgery, neodymium yttrium aluminium garnet laser 574
pregnancy, GIFT, laparoscopy 1388

Immunobead test
antisperm antibodies, spermatozoa, cervical mucus, intrauterine insemination 1125
Immunochemical localization
epididymal proteins, monoclonal antibody, mouse 259
Immunocontraception
birth control, preimplantation embryo 166
Immunocytochemistry
epidermal growth factor, endometrium, culture, proliferation 1200
Immunohistochemistry
monoclonal antibody, epididymal proteins, testosterone, mouse 589
superoxide dismutase, ovary, follicular fluid, ELISA 1349
Immunolocalization
endometrial protein PP14, endometriosis 1408
Immunomagnetic beads
Dynabeads, first trimester decidua, endothelium 1156
Implantation
endometrial proteins, placental protein 12 (IGFBP-1), placentation 1311
platelet activating factor, prostaglandins, embryo 436
ureaplasma, spermatozoa, IVF 727
uterine luminal epithelium, pinopodes, receptivity, progesterone 597
IMX assay
luteinizing hormone, urinary LH, ovulation prediction, ultrasonography 515
In-vitro bioassay of LH
serum isoforms of LH, LH heterogeneity, bioactive LH, polycystic ovarian disease 346
In-vitro culture
embryos, human blastocyst, HCG, morphology 1143
In-vitro model
luteal phase support, GnRH analogue, granulosa cells, HCG 198
Infertility
antisperm antibodies, mixed antiglobulin reaction, sperm–mucus interaction 267
antisperm antibodies, Percoll gradient, immunobead preparation 593
assisted medical procreation, frozen–thawed embryos, IVF–ET, GIFT 613
cumulative pregnancy rates, selection procedures, methodology, IVF 939
distal tubal infertility, IVF, laparoscopy, microsurgery 1431
gestational mother, non-genetic surrogacy, test case 1176
GIFT, Fallopian tube, transcervical tubal catheterization 537
idiopathic infertility, male factor, intrauterine insemination, multiple follicular recruitment 947
immunological infertility, recurrent empty follicle syndrome, case report 651
infertility surgery, CO_2-laser-endoscopy 1288
intrauterine insemination, spermatozoa, hyaluronic acid, centrifugation/swim up 390
IVF, pregnancy rates, prognostic factors, multivariate analysis 805
IVF–ET, GIFT, ZIFT 263
male infertility, partial zona dissection, micromanipulative fertilization, IVF–ET 676
narcotics, organochlorine compounds, pollution, causative factors 1170
obstructive azoospermia, IVF, epididymal sperm aspiration 1284
ovulatory disorders, tubal infertility, oligo-terato- asthenozoospermia, incidence, epidemiological survey 811
pelvic cysts, endometriosis, transvaginal ultrasound 1404
pituitary–ovarian axis, thyroid function, TRH 338
prevalence, age, medical referral, spontaneous abortion 1391
retarded endometrial development, luteal phase, infertility, progesterone 325
Robertsonian translocation, synaptic anomalies, XY- trivalent association, spermatozoa 376
spermatogenesis, chromosomal aberration, oligozoospermia, azoospermia, Robertsonian translocation 245
spermatozoa, sperm washing, sperm motility, intrauterine insemination 1241
superovulation, direct intraperitoneal insemination, pregnancy 533
tubal embryo transfer, transvaginal route, male infertility, IVF 672
tubal infertility, radionuclide migration, laparoscopy, chromopertubation 529
tubal pregnancy, salpingitis isthmica nodosa 828
unexplained infertility, clomiphene citrate, luteinized unruptured follicles 659
unexplained infertility, menotrophins, ovulation induction, IVF 222
unexplained infertility, randomized trial, superovulation, assisted reproductive techniques, pregnancy rates 953
unexplained infertility, ZIFT, transvaginal oocyte recovery, infection 1294
voluntary infertility, tubal sterilization, endometriosis, childbirth 1400
Inhibin
alpha-subunit, messenger ribonucleic acid, granulosa cells, IVF–ET 351
exercise, acute exercise, gonadotrophins 747
Insulin
oral glucose tolerance test, naloxone, opiate receptor blocker, polycystic ovarian disease 1043
Insulin-like growth factor binding proteins
endometrial stroma, mRNA, steroid hormones 632
insulin-like growth factor binding protein-1, ovarian stimulation, gonadotrophins, IVF 1220
insulin-like growth factor, receptor, cAMP, synergism 1213
insulin-like growth factor I, gonadotrophins, granulosa cells, culture, progesterone, IVF 1074
Insulin-like growth factors
binding protein-1, granulosa–luteal cells, DNA amplification, IVF, human 770
growth hormone, gonadotrophins, ovulation induction, fertilization, Laron dwarfism 670
growth hormone releasing factor, gonadotrophins, growth hormone, IVF–ET, GIFT 1228
insulin-like growth factor binding proteins, follicular fluid, IVF, ovarian stimulation 313
insulin-like growth factor binding protein, receptor, cAMP, synergism 1213
Interleukin-1α
granulosa–luteal cells, cyclic AMP, progesterone, luteinizing hormone, follicle stimulating hormone 910
Intermediate filament proteins
desmin, decidua, endometrium, monoclonal antibody 186
vimentin, cytokeratin, endometrial glands, endometriosis, pregnancy 1466
Intra-follicular blood flow
periovulatory period, colour flow mapping, transvaginal ultrasonography 319
Intra-uterine device
pregnancy, ectopic pregnancy, post-ectopic pregnancy fertility 999
Intrauterine insemination
age, infertility, idiopathic infertility, male factor, multiple follicular recruitment 947
antisperm antibodies, cervical mucus, spermatozoa, mixed antiglobulin reaction, immunobead test 1125
HCG, luteinizing hormone, LH surge, urinary LH test, ovulation timing 1247
infertility, spermatozoa, hyaluronic acid, centrifugation/swim up 390
ovarian stimulation, follicular aspiration, oocyte retrieval 356
spermatozoa, sperm washing, sperm motility, infertility 1241
IVF
congenital malformations, perinatal outcome 1259
cryopreservation, embryos, ultra-rapid freezing, pregnancies 735

cryopreservation, preimplantation embryo, frozen–thawed embryo, zygote 131
cryopreservation, zona-drilled embryos, mouse 432
culture media, bacterial endotoxin, preimplantation embryos, mouse oocytes 730
diethylstilbestrol, genital tuberculosis, septate uterus, pregnancy, case report 690
distal tubal infertility, laparoscopy, microsurgery 1431
embryo transfer, catheter, pregnancy 1092
epididymal sperm aspiration, embryo transfer, obstructive azoospermia 1284
fertilization failure, GnRH analogue, HMG, fertilization failure, ageing gametes 879
fertilization rate, Diff-Quik staining, spermatozoa, morphology 854
follicular stimulation, clorniphene citrate + HMG, human 106
GnRH agonist, buserelin, HCG, delayed administration, pregnancy 944
GnRH agonist, buserelin, pregnancy 290
GnRH agonist, leuprolide acetate, densitization versus flare protocols, luteal phase 206
GnRH analogue, gonadotrophins, luteal support, luteal phase defect 914
gonadotrophins, ovulation stimulation, preovulatory oestradiol 113
granulosa–luteal cells, culture, insulin-like growth factor, binding protein-1, DNA amplification, human 770
granulosa–luteal cells, culture media, luteinization, progesterone 1343
granulosa cells, culture, gonadotrophins, insulin-like growth factor I, progesterone 1074
human blastocyst, trophectoderm biopsy, HCG 1449
implantation, spermatozoa, partial zona dissection, subzonal insemination 118
infertility, cumulative pregnancy rates, selection procedures, methodology 939
known egg donor, electro-ejaculation, pregnancy 384
leuprolide acetate, cryopreservation, endometrial preparation 443
LHRH agonist, DTRP^6, HMG, follicular fluid hormone profiles, pregnancy 653
maternal death, sub-arachnoid haemorrhage, case report 898
oocyte immaturity, premature chromosome condensation, HCG, cytogenetic analysis 1017
oocyte retrieval, hyperprolactinaemia, analgesia versus anaesthesia 1291
oocytes, chromosomes, cytogenetic studies, human 709
oocytes, cytogenetic studies, meiotic non-disjunction, mathematical model 550
ovarian hyperstimulation, complicated OHSS, oestradiol, peak oestradiol, HCG 959
ovarian stimulation, embryos, cryopreservation, HMG, GnRH agonistic analogue 799
ovarian stimulation, follicle stimulating hormone, HMG, GnRH analogue, LHRH analogue 922
ovarian stimulation, follicular aspiration, oocyte retrieval 356
ovarian stimulation, GnRH agonist, gonadotrophins, follicles, preovulatory phase 823
ovarian stimulation, gonadotrophins, insulin-like growth factor binding protein-1 1220
ovarian stimulation, HCG, coagulation, fibrinolysis 925
ovarian stimulation, insulin-like growth factors, insulin-like growth factor binding proteins, follicular fluid 313
pituitary agonist, buserelin, LHRH agonist, dose, mode of administration 1370
pituitary down-regulation, HMG, buserelin, poor versus good response 918
polycystic ovarian syndrome, GnRH agonist 238
pregnancy, miscarriage, sperm morphology 983
pregnancy rates, prognostic factors, multivariate analysis 805
preovulatory granulosa cells, culture, oestradiol-17β, testosterone, oxytocin 774
preovulatory oocytes, implantation, pregnancy, cryopreservation 284
prolactin, GnRH analogue, buserelin, gonadotrophins, HCG 1070
prostaglandins, steroid hormones, follicular fluid, pregnancy 519
social control, human embryo research 1480
sonography, vaginal/abdominal route, follicular monitoring 688
sperm analysis, automated screening, Cellsoft, stepwise linear regression 1119
sperm morphology, Percoll gradient centrifugation, swim- up 581
sperm motility, superoxide dismutase, lipid peroxide, oxygen-free radicals 987
sperm preparation, hyaluronic acid, swim-up 722
spermatozoa, ureaplasma, implantation 727
stimulated cycles, follicle growth, ultrasound, pregnancy 465
tubal embryo transfer, transvaginal route, male infertility 672
ultrasonically directed oocyte retrieval, follicular flushing 382
unexplained infertility, ovulation induction, menotrophins 222
unfertilized oocytes, cytogenetic studies, chromatids, premature centromere division 568
zona drilling, zona cutting, semen factors, human 423

IVF–ET
delayed embryo transfer, IVF alleviating techniques 541
ectopic pregnancy, risk factors, fecundity 446
endometrium, ultrasonography, ovarian stimulation, gonadotrophins 232
GIFT, GnRH agonist, leuprolide acetate, flare regime, HMG + CC 817
GIFT, gonadotrophins, growth hormone releasing factor, insulin-like growth factor, growth hormone 1228
GIFT, ZIFT, infertility 263
GnRH agonist, gonadotrophins, ovarian cysts, long versus short protocol 194
GnRH analogue, gonadotrophins, long and short protocols 203
GnRH analogue, gonadotrophins, ovarian stimulation, smoking 242
GnRH analogue, granulosa cells, HCG, luteal phase support 198
heterotopic pregnancy, hospitalization, pregnancy outcome, case report 1008
infertility, frozen–thawed embryos, pregnancy 613
ovarian hyperstimulation syndrome, HCG, GnRH analogue 1088
ovarian stimulation, poor responders, growth hormone, Norditropin 524
partial zona dissection, micromanipulative fertilization, male infertility 676
pregnancy, steroid replacement therapy, donor embryo 299
preovulatory follicular fluid, oestradiol, progesterone 359
preovulatory mRNA, inhibin, alpha-subunit, granulosa cells 351

Laparoscopy
GIFT, pelvic abscess, case report 604
laparoscopic adnexectomy, chromosomes, isodicentric Y, Turner's mosaic 566
laparoscopic tubal sterilization, endometriosis, frequency, pregnancy 699
laparotomy, ectopic pregnancy, retrospective survey 1002
laser endoscopy, infertility, surgery 1288
pregnancy, GIFT, hysteroscopy 1388
tubal infertility, radionuclide migration, chromopertubation 529

Laron dwarfism
insulin-like growth factors, growth hormone, ovulation induction, fertilization 670

Lasers
laser endoscopy, CO_2-laser-endoscopy, infertility, surgery 1288
laser microbeam, spermatozoa, oocytes, micromanipulation, optical trap 1011
neodymium yttrium aluminium garnet laser, electrosurgery, endometrial ablation, intrauterine surgery 574

Lectin
peanut lectin, sperm quality, spermatozoa, flow cytometry 1129

Legislation
German Embryo Protection Act, ethics and Society 605
implications and consequences of the German Embryo Protection Act 607

Leuprolide acetate
cryopreservation, endometrial preparation, IVF 443
GnRH agonist, flare regime, IVF–ET, GIFT, HMG + CC 817

LH
serum isoforms of LH, bioactive LH, LH heterogeneity, polycystic ovarian disease 346
urinary LH test, LH surge, HCG, ovulation timing, intrauterine insemination 1247

LHRH
gonadotrophins, ovary, prolactin 214

LHRH agonist
buserelin, dose, mode of administration, IVF, pituitary agonist 1370
DTRP^6, HMG, follicular fluid hormone profiles, pregnancy, IVF 653
microcapsule D-Trp 6–LHRH, ovariectomized rats, bioactive LH 928
uterine leiomyoma, conjugated oestrogens 500

LHRH analogue
GnRH analogue, ovarian stimulation, follicle stimulating hormone, HMG, IVF 922

Lipid peroxide
oxygen-free radicals, superoxide dismutase, sperm motility, IVF 987

Low-dose gonadotrophins
polycystic ovarian syndrome, multiple pregnancy 1095

Lupus anticoagulant
anti-cardiolipin antibody, pregnancy loss, abortion 889
Luteal phase
corpus luteum, norethisterone, oestradiol, progesterone, HCG 1050
endometrial biopsy, progestagen-associated endometrial protein, infertility 761
endometrial biopsy, serum PEP, serum steroid levels 511
endometrium, pregnancy associated endometrial α_2- globulin, fluorography, clomiphene citrate, human 783
endometrium, preimplantation development, progesterone, transmission electron microscopy 640
GnRH agonist, leuprolide acetate, HCG, densitization versus flare protocols, IVF 206
luteal phase defect, corpus luteum, endometriosis, salivary progesterone 1223
luteal phase defect, endometrial biopsy, endometrial protein, progesterone 484
luteal phase defect, GnRH analogue, gonadotrophins, luteal support, IVF 914
retarded endometrial development, infertility, progesterone 325
sex hormone-binding globulin, oestradiol, testosterone, HCG, IVF–ET 1039
Luteinization
culture media, progesterone, granulosa–luteal cells, IVF 1343
Luteinized unruptured follicle
endometriosis, menstrual cycle, ovulation 227
Luteinizing hormone
bioactive LH, ovariectomized rats, LHRH agonist, microcapsule D-Trp 6–LHRH 928
bioactive LH, serum isoforms of LH, LH heterogeneity, polycystic ovarian disease 346
clomiphene citrate, unexplained infertility, luteinized unruptured follicles, FSH 659
follicle stimulating hormone, ovulation induction, steroidogenesis, folliculogenesis 1206
HCG, oocyte, embryo, rabbit 1445
progesterone, cyclic AMP, interleukin-1α, granulosa–luteal cells, IVF 910
testosterone, follicle stimulating hormone, inhibin, acute exercise 747
urinary LH, IMX assay, ovulation prediction, ultrasonography 515
urinary LH test, LH surge, HCG, ovulation timing, intrauterine insemination 1247
Lymphoma
cryopreserved spermatozoa, GIFT, pregnancy, case report 365

Male infertility
asthenoteratozoospermia, α-glucosidase, epididymal secretory function 850
spermatozoa, acrosome reaction, acrosomal defects, acrosin 969
tubal embryo transfer, transvaginal route, IVF 672
Maternal/fetal steroid concentrations
mifepristone, progesterone receptor antagonist, placental transfer 458
Mathematical model
cytogenetic studies, oocytes, meiotic non-disjunction, IVF 550
preimplantation embryo, oxygen diffusion, mouse, human 52
Medicated IUD
oestradiol, oestriol, gonadotrophins, Asherman's syndrome, rhesus monkey 1373
Menopausal flush symptomatology
vasoconstrictor ice, digital vasoconstriction response 472
Menotrophins
ovulation induction, IVF 222
Menstrual cycle
oxytocin, oestradiol, HMG, pregnancy 1056
cells, IVF–ET 351
Methotrexate
extra-uterine pregnancy, rat 480
surgery, interstitial pregnancy 302
Metrodin
follicle stimulation hormone, HCG, quintuplet pregnancy, ovarian hyperstimulation 1474
Micromanipulation
late mouse morulae, biopsy, decompaction, embryo viability 1298
micromanipulative fertilization, partial zona dissection, male infertility, IVF–ET 676
Microsurgery
distal tubal infertility, IVF, laparoscopy 1431
microsurgical injection, testicular spermatozoa, oocytes, cleavage, rabbit 277
Mifepristone - see RU 486
Miscarriage
spermatozoa, sperm morphology, IVF, pregnancy 983
Mixed antiglobulin reaction
antisperm antibodies, spermatozoa, cervical mucus, intrauterine insemination 1125
spermatozoa, antisperm antibodies, infertility 267
Monoclonal antibodies
antisperm antibodies, capacitation, zona pellucida binding, sperm motility, acrosome reaction 1416
desmin, intermediate filament proteins, decidua, endometrium 186
epididymal proteins, immunohistochemistry, testosterone, mouse 589
indirect immunofluorescence, sperm tail fibrous sheath, epitope phosphorylation 1135
spermatozoa, epididymal proteins, immunochemical localization, mouse 259
mRNA
IGF-binding proteins, endometrial stroma, culture, steroid hormones 632
preovulatory mRNA, inhibin, alpha-subunit, granulosa cells, IVF-ET 351
Multiparameter flow cytometry
fetal erythrocytes, polymerase chain reaction, prenatal diagnosis 1460
Multiple follicular recruitment
age, infertility, idiopathic infertility, male factor, intrauterine insemination 947
Multivariate analysis
pregnancy, prognostic factors, pregnancy rates, IVF 805
Myelin basic protein
shiverer mouse model, mutation, transgenic mice 93
Myometrium
epidermal growth factor receptor, immunohistochemical localization, quantitative ligand binding 618

Naloxone
β-endorphin, HCG secretion, opiate receptor, placental explants 1327
opiate receptor blocker, insulin, oral glucose tolerance test, polycystic ovarian disease 1043
Narcotics
infertility, causative factors 1170
Neural-tube defect
vitamin deficiency, postimplantation embryo culture, human and animal studies 148
Neuropeptide Y
tyrosine hydroxylase, uterine artery, noradrenaline, adrenergic receptors, co-existence 1034
Non-genetic surrogacy
gestational mother, infertility, test case 1176
Noradrenaline
neuropeptide Y, adrenergic receptors, co-existence, uterine artery 1034
Norethisterone
corpus luteum, oestradiol, progesterone, HCG, luteal phase 1050
peritoneal fluid, steroid hormones, gonadotrophins, luteal phase 1233
Null allele
genetic marker, recurrent spontaneous abortions, complement C4 1384

Obstructive azoospermia
SMART, microsurgery, IVF–ET, case report 367
Oestradiol
clomiphene citrate, ovary, ovarian ageing, gonadotrophins 931
cryopreserved embryos, embryo transfer, placental protein 14, progesterone, pituitary down-regulation 737
follicles, preovulatory phase, GnRH agonist, ovarian stimulation, IVF 823
free oestradiol, preovulatory follicular fluid, IVF–ET 359
oestriol, medicated IUD, gonadotrophins, Asherman's syndrome, rhesus monkey 1373
ovarian hyperstimulation syndrome, management, prediction, prevention 1082
oxytocin, menstrual cycle, HMG, pregnancy 1056
peak oestradiol, ovarian hyperstimulation, complicated OHSS, ovarian hyperstimulation, HCG 959
pinopodes, uterine luminal epithelium, progesterone 597
progesterone, corpus luteum, norethisterone, HCG, luteal phase 1050
progesterone, cortisol, epidermal growth factor receptors, endometrium 1365

progesterone, pituitary-down regulation, buserelin, oestrone, cryopreserved embryo transfer 934
sex hormone-binding globulin, testosterone, HCG, IVF–ET 1039
Oestradiol valerate
progesterone, hormone replacement therapy, endometrial glands, ultrastructure, morphometry 1354
Oestradiol-17β
oxytocin, preovulatory granulosa cells, culture, follicle stimulating hormone, IVF 774
Oestriol
oestradiol, medicated IUD, gonadotrophins, Asherman's syndrome, rhesus monkey 1373
Oestrogen receptors
P29, oestrogen receptor-associated protein, mifepristone, placenta, decidua 1338
Oestrous cycle
bovine, uterine epithelial cells, epithelial cells, monolayer foundation 751
Oocytes
ageing gametes, fertilization failure, IVF, GnRH analogue, HMG 879
chromosomes, cytogenetic studies, IVF, human 709
cryopreservation, dimethyl sulphoxide, fertilization, human 142
cytogenetic analysis, chromosome anomalies, IVF 1100
donor oocytes, pregnancy, IVF 384
donors, psychological evaluation 1478
embryo, pre-embryo, oogenic-prespermatogenic wave, germ line 1411
embryo, rabbit, HCG, luteinizing hormone 1445
embryo transfer, epididymal sperm aspiration, IVF, obstructive azoospermia 1284
intra-vaginal culture, cryopreservation 76
IVF, cytogenetic studies, chromatids, premature centromere division 568
meiotic non-disjunction, mathematical model, IVF, human 550
micromanipulation, laser microbeam, optical trap, zona drilling 1011
oocyte immaturity, premature chromosome condensation, HCG, IVF 1017
oocyte maturation, ovarian cyclic nucleotides, rat model 411
oocyte maturation, triple fluorochrome staining, rhesus monkey 623
oocyte retrieval, follicular flushing, follicular aspiration, IVF 382
oocyte retrieval, granulosa cells, phagocytosis, time- lapse cinematography 331
oocyte retrieval, hyperprolactinaemia, analgesia versus anaesthesia, IVF 1291
oocyte retrieval, ovarian stimulation, follicular aspiration, IVF, intrauterine insemination 356
preovulatory human oocytes, mouse oocytes, cryopreservation protocols, dimethyl sulphoxide equilibration 1453
preovulatory oocytes, implantation, pregnancy, cryopreservation, IVF 284
spermatozoa, meiosis, chromosomes, aneuploidy 1252
testicular spermatozoa, microsurgical injection, cleavage, rabbit 277
transvaginal oocyte recovery, infection, ZIFT, unexplained infertility 1294
zona-drilled oocytes, semen factors, IVF, human 423
Opiate receptor
β-endorphin, naloxone, HCG secretion, placental explants 1327
Opiate receptor blocker
naloxone, insulin, oral glucose tolerance test, polycystic ovarian disease 1043
Oral glucose tolerance test
insulin, naloxone, opiate receptor blocker, polycystic ovarian disease 1043
Organochlorine compounds
infertility, causative factors 1170
Ovary
follicular fluid, immunohistochemistry, ELISA, superoxide dismutase 1349
management of ovarian hyperstimulation syndrome, oestradiol, HCG 1082
ovarian ageing, clomiphene citrate, gonadotrophins, oestradiol 931
ovarian cyclic nucleotides, regulation of oocyte maturation, rat model 411
ovarian cystic tumours, cyst puncture, ultrasound, sonography 177
ovarian cysts, GnRH agonist, gonadotrophins, IVF–ET 194
ovarian function, pituitary–ovarian axis, infertility 338
ovarian hyperstimulation, complicated OHSS, HCG, peak oestradiol, IVF 959
ovarian hyperstimulation syndrome, follicular aspiration, oocyte retrieval, IVF, intrauterine insemination 356
ovarian hyperstimulation syndrome, GnRH agonist, IVF 238
ovarian hyperstimulation syndrome, gonadotrophins, hormonal profiles, follicular growth 665
ovarian hyperstimulation syndrome, HCG, GnRH analogue, IVF–ET 1088
ovarian hyperstimulation syndrome, management, prediction, prevention 1082
ovarian hyperstimulation syndrome, ovulation triggering, GnRH agonist, buserelin, LH surge, HMG 506
ovarian inhibitory substance, LHRH, gonadotrophins, prolactin 214
ovarian morphology, periovulatory period, colour flow mapping, transvaginal ultrasonography 319
ovarian stimulation, follicle stimulating hormone, HMG, LHRH analogue, IVF 922
ovarian stimulation, GnRH agonist, gonadotrophins, follicles, IVF 823
ovarian stimulation, GnRH analogue, gonadotrophins, smoking 242
ovarian stimulation, gonadotrophins, insulin-like growth factor binding protein-1, IVF 1220
ovarian stimulation, gonadotrophins, IVF–ET, ultrasonography 232
ovarian stimulation, HCG, coagulation, fibrinolysis, IVF 925
ovarian stimulation, IVF, insulin-like growth factors, insulin-like growth factor binding proteins, follicular fluid 313
ovarian stimulation, IVF, intrauterine insemination, follicular aspiration, oocyte retrieval 356
ovarian stimulation, poor responders, growth hormone, IVF–ET 524
ovarian surface epithelium, metaplasia, microvilli, scanning electron microscopy 645
ovulation stimulation, gonadotrophins, IVF, preovulatory oestradiol 113
Ovulation
ovulation induction, gonadotrophins, polycystic ovarian disease, follicular reduction, pregnancy 682
ovulation induction, growth hormone, gonadotrophins, insulin-like growth factors, fertilization 670
ovulation induction, HCG, multiple pregnancy 1152
ovulation induction, menotrophins, unexplained infertility, IVF 222
ovulation induction, mifepristone, progesterone antagonist, gonadotrophins 1238
ovulation induction, polycystic ovary syndrome, FSH, clomiphene citrate, pregnancy 218
ovulation induction, rabbit, HCG, luteinizing hormone 1445
ovulation induction, steroidogenesis, folliculogenesis, luteinizing hormone, follicle stimulating hormone 1206
ovulation prediction, urinary LH, IMX assay, ultrasonography 515
ovulation triggering, GnRH agonist, LH surge, HMG, ovarian hyperstimulation syndrome 506
Oxygen radicals
polymorphonuclear granulocytes, zona-free hamster oocyte assay, spermatozoa 1104
Oxygen-free radicals
lipid peroxide, superoxide dismutase, sperm motility, IVF 987
Oxytocin
HCG, pulsatility, culture, placental superfusion 766
oestradiol, menstrual cycle, HMG, pregnancy 1056
preovulatory granulosa cells, culture, oestradiol-17β, testosterone, follicle stimulating hormone 774

P29
oestrogen receptor-associated protein, mifepristone, placenta, decidua 1338
Partial zona dissection
micromanipulative fertilization, male infertility, IVF–ET 676
Peanut lectin
acrosome fluorescence, flow cytometry, sperm quality 1129
Pelvic cysts
endometriosis, infertility, transvaginal ultrasound 1404
PEP
endometrial biopsy, luteal phase, infertility 761
Percoll
Percoll gradient, antisperm antibodies, immunobead preparation, immunological infertility 593
Percoll gradient centrifugation, sperm morphology, swim-up, IVF 581
sperm motility, acrosome reaction, human zona pellucida 401
Peritoneal fluid
steroid hormones, gonadotrophins, norethisterone, luteal phase 1233
Phagocytosis
granulosa cells, time-lapse cinematography, human 331

Phorbol myristate acetate
polymorphonuclear granulocytes, zona-free hamster oocyte assay, spermatozoa, oxygen radicals 1104
Pinopodes
uterine luminal epithelium, oestradiol, progesterone, receptivity, implantation 597
Pituitary agonist
IVF, buserelin, LHRH agonist, dose, mode of administration 1370
Pituitary down-regulation
embryo transfer, cryopreserved embryos, placental protein 14, oestradiol 737
HMG, buserelin, poor versus good response, IVF 918
Placenta
decidua, P29, oestrogen receptor-associated protein, mifepristone 1338
placental explants, HCG secretion, β-endorphin, naloxone, opiate receptor 1327
placental superfusion, culture, pulsatile HCG, GnRH, GnRH agonist 1063
placentation, placental protein 12 (IGFBP-1), endometrial proteins, implantation 1311
Placental protein 14
progesterone, cryopreserved embryos, embryo transfer, pituitary down-regulation 737
Platelet-activating factor
prostaglandins, implantation 436
radioimmunoassay versus bioassay, embryo, culture medium, human, mouse 872
Polar body typing
polymerase chain reaction, gene amplification, embryo, biopsy, preimplantation diagnosis 836
Pollution
infertility, causative factors 1170
Polycystic ovarian disease
follicular reduction, ovulation induction, gonadotrophins, pregnancy 682
growth factors, insulin resistance, hyperandrogenism, LH pulsatility 1025
luteinizing hormone, bioactive LH, serum isoforms of LH, LH heterogeneity 346
naloxone, opiate receptor blocker, insulin, oral glucose tolerance test 1043
Polycystic ovarian syndrome
clomiphene citrate, FSH, ovulation induction, pregnancy 218
gonadotrophins, low-dose gonadotrophins, multiple pregnancy 1095
IVF, GnRH agonist 238
Polymerase chain reaction
fetal erythrocytes, multiparameter flow cytometry, prenatal diagnosis 1460
gene amplification, blastomere typing, polar body typing, preimplantation diagnosis 836
Polymorphonuclear granulocytes
spermatozoa, zona-free hamster oocyte assay, phorbol myristate acetate, oxygen radicals 1104
Polyploidy
diandric triploidy, digynic triploidy, tetraploidy, model systems 8
Polyspermic fertilization
laser microbeam, micromanipulation, optical trap, spermatozoa 1011
Pre-embryo
nucleocytoplasmic ratio, preimplantation development, human blastocyst 17
oocyte, oogenic-prespermatogenic wave, spermatogenic system, germ line 1411
Pregnancy
assisted medical procreation, frozen–thawed embryos, IVF–ET, GIFT 613
clomiphene citrate, HMG + HCG, premature luteinization, progesterone 190
cryopreservation, blastocyst, viability, implantation 136
cryopreservation, preimplantation embryo, IVF, frozen–thawed embryo 131
cumulative pregnancy rates, infertility, IVF, selection procedures 939
diethylstilbestrol, genital tuberculosis, septate uterus, IVF, case report 690
direct intraperitoneal insemination, superovulation 533
donor oocytes, known egg donor, IVF 384
ectopic pregnancy, intra-uterine device, post-ectopic pregnancy fertility 999
ectopic pregnancy, IVF, bilateral salpingectomy, case report 1167
ectopic pregnancy, IVF–ET, fecundity 446
ectopic pregnancy, laparoscopy, laparotomy, retrospective survey 1002
ectopic pregnancy, medical treatment, non-surgical management, predictive criteria, score 995
ectopic pregnancy, methotrexate, surgery 302
ectopic pregnancy, risk factors, fecundity, IVF–ET 446
embryo transfer, catheter, IVF 1092
endometriosis, intermediate filament protein, vimentin, cytokeratin, endometrial glands 1466
estimated frequency of, chromosome anomalies, cytogenetic studies, spontaneous abortion 555
extra-uterine pregnancy, methotrexate, rat 480
first trimester bleeding, endometrial protein PP14 885
GIFT, cryopreserved spermatozoa, lymphoma, testicular neoplasm, case report 365
GIFT, laparoscopy, hysteroscopy 1388
hamster, stevioside 158
heterotopic pregnancy, hospitalization, IVF–ET, case report 1008
interstitial pregnancy, methotrexate, surgery 302
IVF–ET, GIFT, ZIFT 263
IVF–ET, preovulatory follicular fluid, oestradiol, progesterone 359
IVF–ET, SMART, microsurgery, obstructive azoospermia, case report 367
IVF–ET, steroid replacement therapy, donor embryo 299
laparoscopic tubal sterilization, endometriosis, frequency 699
LHRH agonist, $DTRP^6$, HMG, follicular fluid hormone profiles, IVF 653
lymphocytotoxic antibody, anti-paternal cytotoxic antibody, immunotherapy 294
multiple pregnancy, gonadotrophins, low-dose gonadotrophins, polycystic ovarian syndrome 1095
multiple pregnancy, ovulation induction, HCG 1152
non-surgical treatment, expectant management, tubal patency, reproductive performance 1470
oestradiol-17β, testosterone, preovulatory granulosa cells, culture, oxytocin, IVF 774
ovarian stimulation, GnRH agonist, IVF 290
ovulation induction, FSH, polycystic ovary syndrome, clomiphene citrate 218
oxytocin, oestradiol, HMG, menstrual cycle 1056
pregnancy loss, lupus anticoagulant, anti-cardiolipin antibody, anti-phospholipid antibodies, abortion 889
pregnancy rate, sperm morphology, Percoll gradient centrifugation, swim- up, IVF 581
pregnancy rate, embryo, cryopreservation, 1,2-propanediol, IVF 799
pregnancy rates, prognostic factors, multivariate analysis, IVF 805
prenatal diagnosis, fetal erythrocytes, multiparameter flow cytometry, polymerase chain reaction 1460
preovulatory oocytes, implantation, cryopreservation, IVF 284
Quintuplet pregnancy, ovarian hyperstimulation, Metrodin, HCG 1474
spermatozoa, sperm morphology, miscarriage, IVF 983
steroid hormones, prostaglandins, IVF, follicular fluid 519
stimulated cycles, follicle growth, ultrasound, IVF 465
subzonal insemination, implantation, fertilization, human 124
tubal pregnancy, salpingitis isthmica nodosa, infertility 828
Preimplantation
preimplantation development, pre-embryo, nucleocytoplasmic ratio, human blastocyst 17
preimplantation diagnosis, genetic disease, myelin basic protein, shiverer mouse model 93
preimplantation diagnosis, X chromosome preimplantation, Y chromosome preimplantation, fluorescent in-situ hybridization 101
preimplantation embryo, biopsy, zone drilling, blastomere 85
preimplantation embryo, birth control, immunocontraception 166
preimplantation embryo, oocytes, embryos, β-*N*- acetylhexosaminidase, mouse 280
preimplantation embryo, oxygen diffusion, mathematical model, mouse 52
preimplantation embryo, X chromosome/Y chromosome, fluorescent in-situ hybridization 101
Preimplantation diagnosis
biopsy, polymerase chain reaction, gene amplification 836
Premature centromere division
chromatids, unfertilized oocytes, human 568
Premature luteinization
progesterone, clomiphene citrate, HMG + HCG, natural cycles, pregnancy 190
Prenatal diagnosis
cryopreservation, embryo, biopsy, mouse 832

Preovulatory follicular fluid
free oestradiol, free progesterone, IVF–ET 359
Principal component analysis
cluster analysis, steroids, IVF 1183
Progestagen-associated endometrial protein
endometrial biopsy, serum steroid levels, luteal phase defect 511
Progesterone
cortisol, oestradiol, epidermal growth factor receptors, endometrium 1365
cyclic AMP, interleukin-1α, granulosa–luteal cells, luteinizing hormone, IVF 910
endometrial morphology, preimplantation development, luteal phase, transmission electron microscopy 640
free progesterone, preovulatory follicular fluid, IVF–ET 359
granulosa cells, granulosa–luteal cells, gonadotrophins, insulin-like growth factor I, IVF 1074
HCG, granulosa–luteal cells, cloprostenol, prostaglandin $F_{2\alpha}$ analogue 779
HCG, placental superfusion, trophoblastic cell differentiation, GnRH analogue 905
in-vitro synthesis, luteal phase, corpus luteum, norethisterone, HCG 1050
luteal phase defect, endometrial biopsy, endometrial protein 484
luteinization, culture media, granulosa–luteal cells, IVF 1343
oestradiol, pituitary-down regulation, buserelin, oestrone, cryopreserved embryo transfer 934
oestradiol valerate, hormone replacement therapy, endometrial glands, ultrastructure, morphometry 1354
pinopodes, uterine luminal epithelium, receptivity, implantation, oestradiol 597
placental protein 14, cryopreserved embryos, embryo transfer, pituitary down-regulation 737
premature luteinization, clomiphene citrate, HMG + HCG, pregnancy 190
retarded endometrial development, luteal phase 325
salivary progesterone, endometriosis, corpus luteum, luteal phase defect 1223
sex hormone-binding globulin, oestradiol, testosterone, HCG, IVF–ET 1039
Progesterone antagonist
mifepristone, gonadotrophins, ovulation induction 1238
Progesterone receptor antagonist
mifepristone, RU 38,486, placental transfer, maternal/fetal steroid concentrations 458
Prolactin
GnRH analogue, buserelin, gonadotrophins, IVF, HCG 1070
HCG, pulsatility, culture, placental superfusion 766
LHRH, ovary, ovarian inhibitory substance 214
Prostaglandins
aspirin, intraperitoneal adhesions, rat 251
decidua, RU486, indomethacin, abortion, uterine contractility 740
follicular fluid, steroid hormones, IVF, pregnancy 519
platelet activating factor, implantation 436
16 kd protein
gossypol, lactate dehydrogenase, seminal plasma 714
development 1305
Psychological evaluation
oocyte donors 1478
Pulsatile GnRH
follicles, control versus induction cycles 1379

Radionuclide hysterosalpingography
scintigraphic imaging, Fallopian tube, passive tubal transport, tubal function 1186
Radionuclide migration
tubal infertility, laparoscopy, chromopertubation 529
Rat model
regulation of oocyte maturation, ovarian cyclic nucleotides 411
Rat pronuclear embryo
blastocyst, culture media, oxygen 1443
Recurrent empty follicle syndrome
immunological infertility, case report 651
Regulation of oocyte maturation
ovarian cyclic nucleotides, rat model 411
Robertsonian translocation
infertility, spermatogenesis, chromosomal aberration 245
synaptonemal complexes, synaptic anomalies, XY-trivalent association, infertility 376

Rosette inhibition assay
early pregnancy factor, human placental extracts, thioredoxin, thioredoxin-related polypeptides 450
RU 486
indomethacin, prostaglandins, decidua, abortion, uterine contractility 740
mifepristone, progesterone receptor antagonist, placental transfer, maternal/fetal steroid concentrations 458
P29, oestrogen receptor-associated protein, placenta, decidua 1338
progesterone antagonist, gonadotrophins, ovulation induction 1238
RU 38,486, placental transfer/progesterone receptor antagonist, maternal/fetal steroid concentrations 458

Salpingitis isthmica nodosa
tubal pregnancy, infertility 828
Scanning electron microscopy
cervical mucus, anisotrophy, dendrites, spherulites, sulphates 1192
Scintigraphic imaging
radionuclide hysterosalpingography, Fallopian tube, passive tubal transport, tubal function 1186
Semen
cryopreservation, lymphoma, chemotherapy, case report 992
motility, freeze–thawed samples, cervical mucus, artificial insemination by donor 1108
semen analysis, spermatozoa, biochemistry, human, fathers 859
Seminal plasma
16 kd protein, gossypol, lactate dehydrogenase 714
Sex hormone-binding globulin
oestradiol, testosterone, HCG, IVF–ET 1039
Shiverer mouse model
mutation, myelin basic protein, preimplantation diagnosis 93
SMART
obstructive azoospermia, IVF–ET, pregnancy, case report 367
Smoking
cigarettes, IVF–ET 242
Sonography
endovaginal, ovarian cystic tumours, cyst puncture 177
vaginal/abdominal route, follicular monitoring, IVF 688
Spermatozoa
acrosin, acrosomes, sperm motility, cryopreservation 1279
acrosome reaction, acrosomal defects, acrosin, male infertility 969
aniline blue staining, chromatin condensation, sperm morphology, sperm malformation, assisted fertilization 979
antisperm antibodies, mixed antiglobulin reaction, immunobead test, intrauterine insemination 1125
antisperm antibodies, mixed antiglobulin reaction, sperm–mucus interaction 267
antisperm antibodies, monoclonal antibody, epididymal proteins, immunochemical localization, mouse 259
antisperm antibodies, Percoll, immunobead preparation, immunological infertility 593
antisperm antibodies, sperm progressive velocity, amplitude of lateral head displacement 405
artificial insemination by donor, gamete donation, attitudes 307
capacitation, acrosome reaction, G-proteins, protein phosphorylation 1265
capacitation, antisperm antibodies, monoclonal antibodies, zona pellucida binding, acrosome reaction 1416
chromosomal abnormalities, Robertsonian translocation, infertility 376
chromosome abnormalities, capacitation, TEST-yolk buffer, cytogenetic studies 369
electro-ejaculation, pregnancy, IVF 384
epididymal proteins, monoclonal antibody, immunohistochemistry, testosterone, mouse 589
extended sperm analysis, chamber for sperm analysis, gases and sperm motility 1275
extrinsic DNA, gene transfer, from other journals 1181
human sperm migration tests, sperm–mucus interaction, sperm migration, hyaluronic acid 396
human sperm movement, sperm progressive velocity, amplitude of lateral head displacement, antisperm antibodies 405
micromanipulation, laser microbeam, optical trap, polyspermic fertilization 1011
monoclonal antibodies, sperm tail fibrous sheath, epitope phosphorylation 1135
morphology, Diff-Quik staining, fertilization rate, IVF 854
oocytes, meiosis, chromosomes, aneuploidy 1252
partial zona dissection, subzonal insemination, implantation, IVF 118

preparation, hyaluronic acid, centrifugation/swim up, sperm motility 386
preparation, hyaluronic acid, centrifugation/swim up, sperm motility 390
semen analysis, biochemistry, human, fathers 859
SMART, microsurgery, obstructive azoospermia, IVF–ET, pregnancy 367
sperm ageing, chromosome abnormalities, IVF, mouse 703
sperm analysis, automated screening, Cellsoft, stepwise linear regression, IVF 1119
sperm migration, cervical mucus, post-partum period 475
sperm morphology, IVF, pregnancy, miscarriage 983
sperm morphology, Percoll gradient centrifugation, swim- up, IVF 581
sperm motility, flagellar defect, outer dense fibres 1426
sperm motility, Percoll, swim-up, acrosome reaction 401
sperm motility, sperm migration, sperm–mucus interaction, hyaluronic acid 396
sperm motility, superoxide dismutase, lipid peroxide, oxygen-free radicals, IVF 987
sperm penetration, hypoosmotic swelling, sperm viability, supravital staining, membrane integrity 1115
sperm preparation, hyaluronic acid, swim-up, IVF 722
sperm preparation techniques, IVF, iatrogenic failure 173
sperm quality, acrosome fluorescence, peanut lectin, flow cytometry 1129
sperm tail fibrous sheath, monoclonal antibodies, indirect immunofluorescence, epitope phosphorylation 1135
sperm washing, sperm motility, infertility, intrauterine insemination 1241
zona-free hamster oocyte assay, polymorphonuclear granulocytes, phorbol myristate acetate, oxygen radicals 1104

Spherulites
sulphates, cervical mucus, scanning electron microscopy, anisotrophy 1192

Statistical evaluation
cluster analysis, principal component analysis, steroids, IVF 1183

Steroid hormones
epidermal growth factor receptors, endometrium 1365
gonadotrophins, peritoneal fluid, norethisterone, luteal phase 1233

Steroid replacement therapy
donor embryo, pregnancy, IVF–ET 299

Steroidogenesis
folliculogenesis, ovulation induction, luteinizing hormone, follicle stimulating hormone 1206

Stress-related hormones
culture, placental superfusion, pulsatility, HCG 766

Subzonal insemination
implantation, pregnancy, fertilization, human 124
polyspermy, IVF, implantation 118

Superovulation
oocyte maturation, triple fluorochrome staining, rhesus monkey 623

Superoxide dismutase
lipid peroxide, oxygen-free radicals, sperm motility, IVF 987
ovary, follicular fluid, immunohistochemistry, ELISA 1349
thioredoxin, mouse embryo, 2-cell block, embryo development 1305

Supravital staining
spermatozoa, hypoosmotic swelling, sperm viability, membrane integrity, assisted reproductive techniques 1115

Synaptic anomalies
Robertsonian translocation, infertility, spermatozoa, chromosomal abnormalities 376

Techniques
embryonic haemopoietic stem cells, embryonic cell grafting, xenotransplantation, mouse embryos 79
embryos, culture, organogenesis, postimplantation, rat, mouse 58

Technology of human reproduction
IVF, social control 1480

Teratogenesis
retinoids, whole embryo culture, rat 144

TEST-yolk buffer
spermatozoa, capacitation, chromosome abnormalities, cytogenetic studies 369

Testicular neoplasm
cryopreserved spermatozoa, GIFT, pregnancy, case report 365

Testicular spermatozoa
microsurgical injection, oocytes, cleavage, rabbit 277

Testosterone
luteinizing hormone, follicle stimulating hormone, inhibin, acute exercise 747
oxytocin, preovulatory granulosa cells, culture, follicle stimulating hormone, IVF 774
sex hormone-binding globulin, oestradiol, HCG, IVF–ET 1039

Thioredoxin
superoxide dismutase, mouse embryo, 2-cell block, embryo development 1305
thioredoxin-related polypeptides, early pregnancy factor, human placental extracts 450

Thyroid function
TRH, pituitary–ovarian axis, infertility 338

Time-lapse cinematography
phagocytosis, granulosa cells, human 331

Transcervical tubal catheterization
infertility, GIFT 537

TRH
thyroid function, pituitary–ovarian axis, infertility 338

Trophectoderm biopsy
human blastocyst, HCG, IVF 1449

Tubal sterilization
voluntary infertility, tubal sterilization, endometriosis, childbirth 1400

Turner's mosaic
isodicentric Y, laparoscopic adnexectomy 566

Tyrosine hydroxylase
neuropeptide Y, uterine artery, noradrenaline, adrenergic receptors, co-existence 1034

Ultrasonically directed oocyte retrieval
follicular flushing, IVF 382

Ultrasonography
endometrial thickness, endometrial pattern, IVF, conception versus non-conception cycle 901
endometrium, ovarian stimulation, gonadotrophins, IVF–ET 232
transvaginal ultrasonography, colour flow mapping, intra-foliicular blood flow, ovarian morphology, periovulatory period 319
transvaginal ultrasound, pelvic cysts, endometriosis, infertility 1404

Ultrasound
endovaginal, ovarian cystic tumours, cyst puncture 177
yolk sac, morphology, early pregnancy 1160

Ureaplasma
spermatozoa, implantation, IVF 727

Uterus
uterine artery, neuropeptide Y, tyrosine hydroxylase, noradrenaline, adrenergic receptors, co-existence 1034
uterine epithelial cells, monolayer foundation, in-vitro culture, oestrous cycle, bovine 751
uterine leiomyoma, LHRH agonist, goserelin, conjugated oestrogens 500
uterine luminal epithelium, pinopodes, oestradiol, progesterone, receptivity, implantation 597

Vaccines
birth control, preimplantation embryo, immunocontraception 166

Vimentin
cytokeratin, intermediate filament protein, endometriosis, pregnancy, endometrial glands 1466

Vitamin deficiency
diet, postimplantation embryo culture, neural-tube defect, human and animal studies 148

XY-trivalent association
Robertsonian translocation, infertility, spermatozoa, chromosomal abnormalities 376

Yolk sac
early pregnancy, ultrasound, morphology 1160

ZIFT
transvaginal oocyte recovery, infection, unexplained infertility 1294

Zoladex
GnRH agonist, depot formulation, genital endometriosis 694

Zona drilling
laser microbeam, micromanipulation, optical trap, oocytes 1011
zona-drilled embryos, cryopreservation, IVF, mouse 432
zona-drilled oocytes, IVF, semen factors, human 423

Zona-free hamster oocyte assay
spermatozoa, polymorphonuclear granulocytes, phorbol myristate acetate, oxygen radicals 1104
